Your turn —

Your Sweet Stuff Experiment

Sugar · blood sugar · Case Study #001 · How to run this one yourself

Same rules Jiwoo used — here they are.

WHAT TO WATCH FOR

Anything sweet — a drink, a dessert, candy, donuts on the counter, juice at a party. If it tastes sweet, it counts.

HOW TO OBSERVE

Notice the setup. Empty stomach or full? About to run, or about to sit still? Then check your body again 30 minutes later.

HOW TO RECORD

Write three things: what you had, when, and how your body felt 30 minutes later. Felt nothing? That's real data. Not sure? A question mark is a real answer.

Scientist: _____ Week of: _____

DAY	WHAT & WHEN	30 MIN LATER
DAY 1		
DAY 2		
DAY 3		
DAY 4		
DAY 5		
DAY 6		
DAY 7		

WHAT I NOTICED

A blank day is not a failed day. — L.
