Your turn —

Your Salty-Snack Experiment

Sodium · water · Case Study #003 · How to run this one yourself

Same rules Jiwoo used — here they are.

WHAT TO WATCH FOR

Salty snacks — chips, pretzels, popcorn, ramen, pizza. Anything that makes your tongue go whoa.

HOW TO OBSERVE

This one is about your body's bell. Every time you eat something salty, count how many times you actually drink water. Notice your mouth and your head.

HOW TO RECORD

Write what you ate, how many times you drank water, and what you noticed. Not sure it was thirst? A question mark is a real answer.
