Your Wide-Awake Experiment

Caffeine · sleep · Case Study #002 · How to run this one yourself

Same rules Jiwoo used — here they are.

WHAT TO WATCH FOR

Anything that might have caffeine — especially in the evening.

WHERE CAFFEINE HIDES

Chocolate and cocoa (dark has more), cola, some iced teas, coffee ice cream, coffee candies. Energy drinks have the most; doctors say kids skip them.

HOW TO OBSERVE

Watch the clock, not just the food. When did you eat it, get in bed, and really fall asleep?

HOW TO RECORD

Write what you had, when, and when you finally fell asleep. Not sure it had caffeine? Write it down with a big fat ?.

Scientist: _____ Week of: _____

DAY	WHAT & WHEN	FINALLY ASLEEP
DAY 1		
DAY 2		
DAY 3		
DAY 4		
DAY 5		
DAY 6		
DAY 7		

WHAT I NOTICED

A blank day is not a failed day. — L.

My Case Report

One test, one page — Notice · Wonder · Test · Report

Case # _____ Scientist: _____ Date: _____

1 · NOTICE

What did your body actually do — really?

_____

_____

_____

2 · WONDER

What do you think made it happen? Write your guess. (Scientists call it a hypothesis.)

_____

_____

_____

3 · TEST

Change ONE thing. Keep the rest the same. What will you change?

☐ One chocolate thing ☐ A smaller piece ☐ Earlier in the day

☐ Lights out anyway ☐ My own idea: _____

I will keep the same: _____

Ask your grown-up before you test anything.

4 · REPORT

What really happened — especially if nothing did?

_____

_____

_____

My body: ☐ It changed ☐ It didn't change ☐ Not sure ?

Same cake, different bodies. Yours is the one you're studying. — L.

Picture Tracker

Your Wide-Awake Experiment, for younger scientists — draw it, then circle.

1. Draw the thing you had that might have caffeine.
2. Circle when you had it — and was bedtime usual or late?
3. At bedtime, circle how falling asleep went. In the morning, circle how you felt.

Scientist: _____ Lab partner: _____

DAY	DRAW IT	WHEN?	BEDTIME	FALLING ASLEEP	NEXT MORNING
1		morning afternoon evening night	usual late ?	fast slow took FOREVER ?	normal soft wet pillow ?
2		morning afternoon evening night	usual late ?	fast slow took FOREVER ?	normal soft wet pillow ?
3		morning afternoon evening night	usual late ?	fast slow took FOREVER ?	normal soft wet pillow ?
4		morning afternoon evening night	usual late ?	fast slow took FOREVER ?	normal soft wet pillow ?
5		morning afternoon evening night	usual late ?	fast slow took FOREVER ?	normal soft wet pillow ?
6		morning afternoon evening night	usual late ?	fast slow took FOREVER ?	normal soft wet pillow ?
7		morning afternoon evening night	usual late ?	fast slow took FOREVER ?	normal soft wet pillow ?

Not sure? Circle the question mark. Real lab notebooks are full of them. — L.

Grown-ups: read the words aloud — your child does the drawing and circling.
