*Your turn —*

# Picture Tracker

*Your Salty-Snack Experiment, for younger scientists — draw it, color it, circle it.*

1. Draw the salty snack you had.
2. Color one circle for each time you drank water.
3. Then circle how your mouth and your head felt.

No salty snack today? Leave the row empty. That's real data too. — L.

*Grown-ups: read the words aloud — your child does the drawing, coloring and circling.*
